

Figure 1

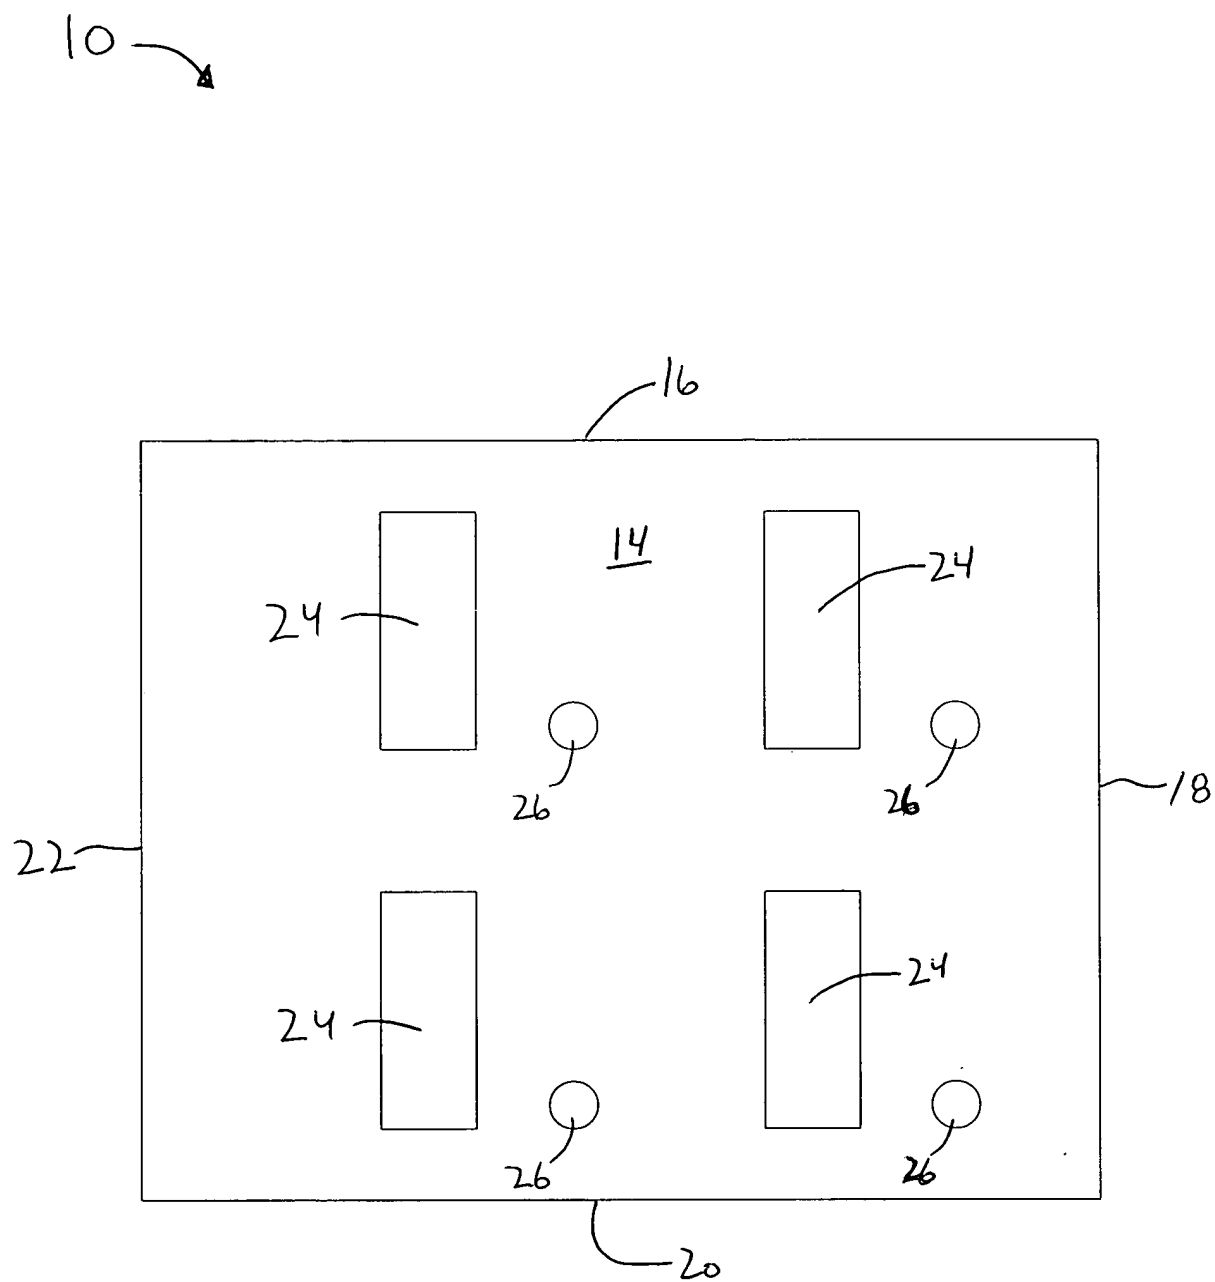

Figure 2

A schematic diagram of a segmented elongated device, such as a catheter. The device consists of a series of segments separated by joints. The segments are labeled 14, 24, 26, 24, and 26 from top to bottom. The joints are labeled 28. The top and bottom ends of the device are rounded and labeled 30. A label 12 points to the right side of the device.
